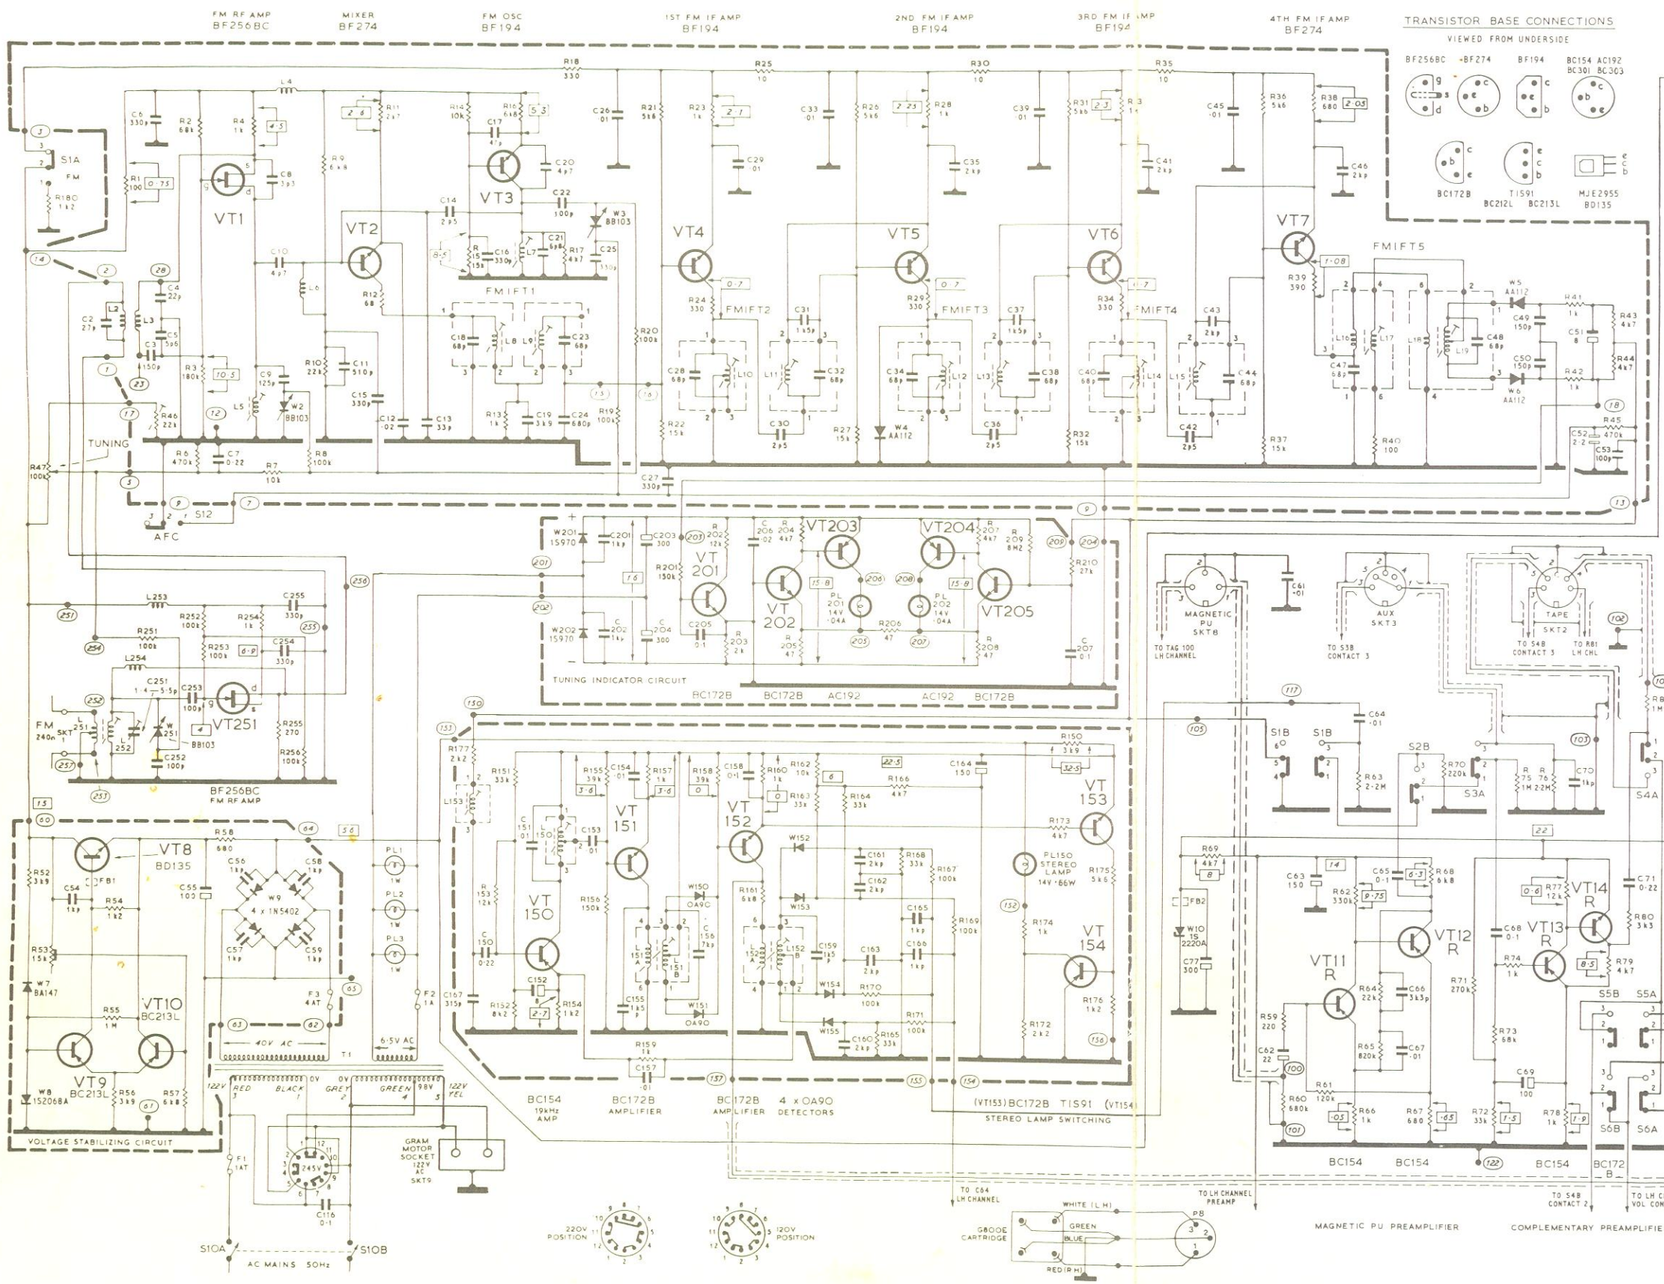
MODULE 80 COMPACT
Service Data

Voltage measurements shown in rectangles were taken relative to positive chassis line (except where otherwise indicated) with a 20,000 ohm/volt meter.

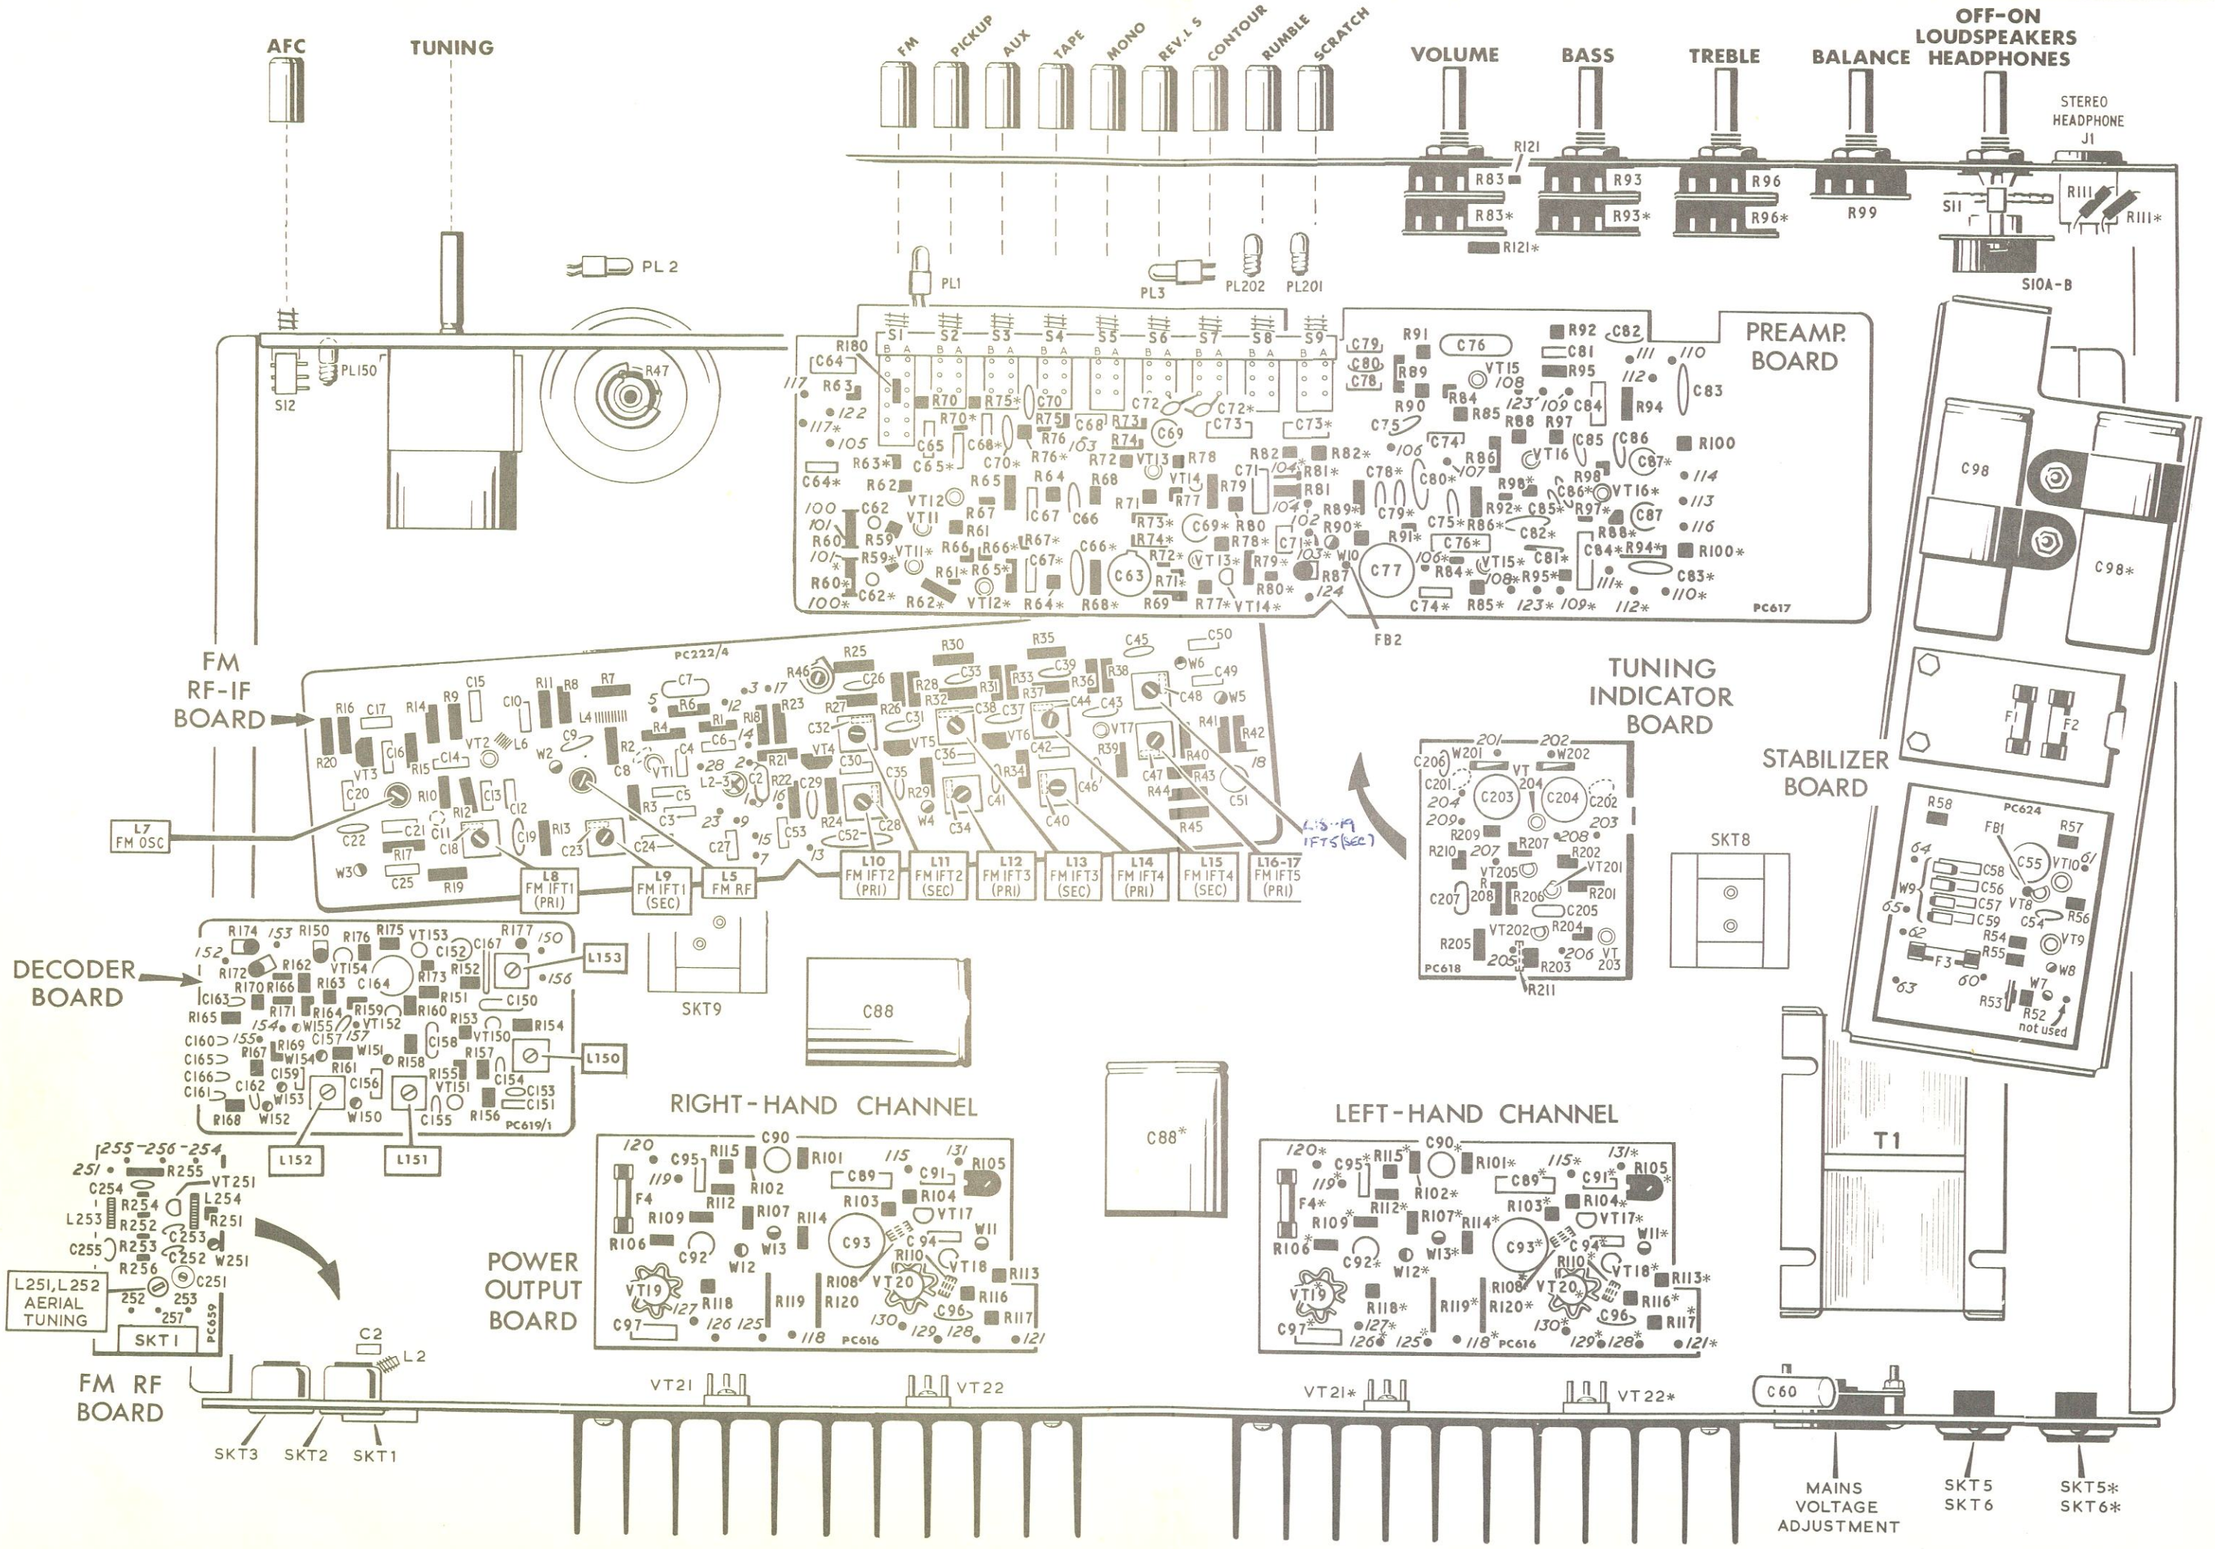
Ringed figures indicate printed board tag connection points.

Goodmans

Goodmans Loudspeakers Limited
Downley Road Havant
Hampshire PO9 2NL England



NOTE. Only the circuit of RH Channel Preamplifier and Main Amplifier is shown. LH Channel is identical except that the connections to contacts 2 & 3 of S8B are transposed.



*Denotes left-hand channel components
